

# Week 3 - Freezer, Pantries and small Appliances

## Checklist:

- Purge expired or no longer used items
- For small appliances purge once you haven't used at all all year or are broken and you haven't taken them to get fixed over a year
- When organizing even sml. appliances I like to keep like items in bins as much as possible.
- Label everything

## For Freezers

- Toss expired items
- Take stuff out of the freezer that doesn't belong and put it in the right freezer (this might only apply to me since I have two extra freezer and one extra fridge and freezer).
